American Urological Association*

American
Urological
Association

Education & Research, Inc.

*Advancing Urology™
through Research*

The AUA Office of Research, working with the Urology Care Foundation, offers a portfolio of mentored research training awards intended to recruit outstanding young investigators into urology research and foster their career success. This fellowship program is designed to attract outstanding medical students to urologic research by engaging them in summer research fellowships alongside world-class urologic scientists. Awardees receive **\$4,000** stipends to support them during a **ten-week mentored research experience**.

“I believe that this fellowship and the resulting project allowed me to build a foundation for how to do research. I learned skills and built relationships that I will use for the rest of my career.”

– Medical Student Awardee, 2010
